Palais Royal

Reduced prices are very effective when the goods offered are thoroughly well known and appreciated. The Suits here are familiar to a host of Palais Royal patrons. Only yesterday the frequent inquiry was: "I want to see that Suit (giving the description) I was looking at last week." The reduced price created a sale in almost every instance. Why not-when the regular price was almost certain to be less than elsewhere? Note the reductions:

\$18 to \$22.50 Suits,

\$25 to \$27.50 Suits,

\$30 to \$50 Suits,

Think of only \$27 for Wool Voile Suits, daintily trimmed and silk lined throughout! Wonder at these perfect specimens of mantailored Panama Suits! \$27 for Palais Royal \$30 to \$50 Suits is

equivalent to offering the garments sold at \$35 to \$60 where exclusiveness means extravagant prices. Note that among these Suits-reduced to \$27-are artistic creations in light gray, coral, Alice blue, green, tan, navy and black. Less elaborate but ladylike Suits at \$16.98 instead of \$25 to \$27.50, and \$13.79 instead of \$18 to \$22.50.

# Corsets, 59c and \$1.66.

Models worth up to \$10 were lately here at \$1.66. Tomorrow's visitors will only find \$6 Corsets at \$1.66. Only a few \$1.50 Corsets remain in the lot offered at 59c for choice. Plenty worth \$1 are still here. Note that the Corset Parlors are on the third floor, where are the Suits. Suggested that a new pair of Corsets be fitted by one of the experts here, and that a new Suit be tried on over the Corsets.

# The Millinery You Have Faith In.

Milady has learned that she cannot find an impossible-to-wear extravagance, and that a vulgar hat is also unknown here. It's logical, because the Palais Royal has ever avoided extremes. The Wagners of the millinery world have to produce their "Tannhauser" hats, and the cheap milliners have to create vulgar hats. The Palais Royal milliners can do neither-and your faith in them is deeply rooted.

Best \$5 Hats.

Superior \$7.50 Hats.

Ideal \$10 Hats.

Paris Hats, \$19.

See these \$5 Hats, and learn that such millinery can be the acme of refinement. The Hats here at \$7.50 are too good, or would not the sale of \$10 Hats be much greater? The Paris Hats, our "inspirations," having answered their purpose, are reduced from \$30, \$35 and \$40 to only \$19 for choice.

#### Hats to Order are the Palais Royal's Great Specialty.

This branch of the business has grown to gigantic dimensions, mainly because of FAITH. The visitor soon learns that absolute faith can be put in the milliners here, and that an unbecoming hat is never possible if the visitor will be guided. Again, materials are always in greatest variety and cost very much less than usual. This fact is partly because of vast buying and selling at prices based on a cash business. The following are illustrative of present conditions:

Hats. 42c to \$2.98. Usually 75c to \$4.

Not only are prices very much less, but hundreds of hats are here where tens are elsewhere.

> Flowers. 11c to \$2.50. Usually 19c to \$3.50.

Literally tens of thousands of bunches and wreaths. Look at the size and beauty of the Flowers here at 39c-compare with any elsewhere at 50c.

Quills also, the wanted shades of old rose, Alice, navy, pink, lavender, green, violet, champagne, black, white.

> Feathers. \$3.15 to \$6.75. Usually \$5 to \$10.

The Palais Royal sale of Ostrich Feather Plumes has brought milliners from Baltimore and created the furore of years. \$10,000 worth—the sale started with.

Ribbon. 29c to 75c. Usually 39c to \$1.

Soft Messaline Satin-finish Ribbons, in all shades, 7 inches wide, are specially good value

36-inch Black Waterproof Silks.

The tremendous development of this department this season may be because the dressmakers are unusually busy-but is it not partly because the Palais Royal stocks of Silks and Dress Goods have been kept free of the trashy auction goods with which the country has been flooded? Worthy goods in the long run are recognized and the trashy take their legitimate place in the background. Discussing Purchase of Proposed Addition.

LAND AT \$4,000 AN ACRE

Hearing by the Senate District Com-

THE PENDING BILL SUPPORTED

Arguments Also Presented in Favor of Acquiring Land on Meridian

Hill for a Pleasure Ground.

Senator Gallinger, chairman of the Senate committee on the District of Columbia, called a meeting of his committee today to hear testimony on the subject of pending bills for adding 100 acres to Rock Creek Park and for a park on Meridian

Rock Creek Park addition is provided for in Senate bill 5201 providing for the purchase by the government of certain pieces of land lying in the vicinity of Massachusetts avenue and Rock creek. It provides that the chief of engineers of the irmy and the District Commissioners shall be made a board of control to secure an accurate plat of the land and to accept the same for park purposes after they have determined a just compensation for the same, with the approval of the President. The compensation already determined upon amounts to about an average of \$4,000 an

Another bill under consideration was to authorize the Secretary of the Interior to acquire by purchase or condemnation, to provide a public reservation, the pieces of land between Euclid street, Columbia ave-nue or 15th street, W street or Florida avenue, and 16th street in Holland Elvin's subdivision of Meridian Hill, containing 137,000 square feet of land, for the acquiftion of which \$600,000 is appropriated. If this land cannot be purchased at a price satisfactorry to the Secretary of the Interior condemnation proceedings are to be

Present at the Hearing.

When Senator Gallinger called the meetng to order there were present Senators Hansbrough, Long, Scott, Burkett, Allee, Gearin, Blackburn, Martin, Foraker and

There were also present Gen. John M Wilson, president of the Board of Trade; Senator Carter, Mr. Charles C. Glover, Mr. R. H. Goldsborough, Mrs. John B. Hen-derson, Mr. Couldren, Dr. Sowers. Senator Gallinger laid the two bills before the committee, together with the report of the Commissioners, showing the essessed the Commissioners, showing the assessed

the Commissioners, showing the assessed value of the land proposed for an extension of the Rock Creek Park. This report showed that the entire tract of 99.74 acres was assessed for \$180.612.52, and the Commissioners stated that, based on that assessment, the value of the property would be \$270.918.73. Senator Martin stated that the assessed value in this case was nearer the price asked for \$420.000 than has been the price asked for, \$420,000, than has been the case in other purchases of property by the government. He said that in the case of the purchase of land for office buildings for the Senate and House of Representa-tives the difference was much greater.

Gen. John M. Wilson, president of the Washington Board of Trade, was the first witness called upon to speak on the pending bills. He stated that the Board of Trade, composed of 700 of the leading business and professional people in this city, had at its last meeting indersed the proposition for the extension of Rock Creek Park unani-

"You may be surprised to see me, a soldier, here as the president of the Board of Trade." said Gen. Wilson, "but the fact is, when I was retired five years ago I determined to devote the balance of my days to the betterment of that dear old city in which I was born, as was my father. The Board of Trade does no business except to promote what it believes to be the best in-

terests of the District of Columbia.

"Thisland can now be bought for 9.8 cents a foot. I remember when I could have purchased land on Connecticut avenue extended for two-fifths of a cent a foot, and it is now selling for \$1.50 a foot."

Mr. Glover's Statement. Mr. Charles C. Glover followed. He re-

counted how twenty years ago he had frequently gone through the present Rock Creek Park region with Mr. George Bancroft, the historian, and how he determined to lend his efforts toward making that beautiful region a public park so as to preserve it for future generations. He told the story of the efforts that resulted in the purchase of the land by the government. This land for the extension of that park, he said, was offered at an average price of about \$4,000 an acre.

"I have heard of a United States sena-tor," he stated, "who said that if Con-gress did not take the 100 acres now offered to it at \$4,000 he would himself give \$8,000

Later it was developed that that state-ment had been made by Senator Clark of Montana.

The purchase of this land by the Congress, he said, would also result in preserving the beautiful forest trees now on the property and would protect the United States naval observatory. It would bring Rock Creek Park down to the border of the city. Mr. Glover gave figures to show the reasonableness of the price asked, and said that the syndicate owning this prop-erty would not have agreed to sell it for \$4,000 an acre were it not for the purpose of a public park, which they believed would enhance the value of their other property. He said that he had paid \$8,000 an acre for the land of the cathedral just beyond for the land of the cathedral just beyond the property referred to, and that land was also extremely rugged and uneven. He had gone to the trouble of getting an option signed by all the owners of this property, as well as by the trustees, and nobody would make a cent out of the transaction except the owners of the property themselves. The 4,000 feet of land on Massachusetts avenue was all available for building purposes, and at the rate of 10 cents a foot he considered it very cheap indeed. He stated that there would be in the near future a project for a railroad north of this proposed park, which would give additional access to it.

proposed park, which would give additional access to it.

Senator Foraker made a brief statement in favor of the purchase of land on Meridian Hill for a park on 16th street. He said that that section of the city had not had its share of park improvement, and he believed that it should be given more improvement of that kind.

Referring to the general subject of park improvements, the statement was made that Rock Creek Park and the Zoo now comprise nearly 1,800 acres of land.

Proposed Meridian Hill Park.

Mrs. Henderson was then heard. Mrs. Henderson spoke earnestly on the desirability of establishing a park on Meridian

Hill.

"There are three reasons," she said, "why the especial parking space now brought to your attention on Meridian Hill should be taken at once. First, because there is no small park near. Second because it commands one of the finest city views in the world, comparable with that of Atheres. small park near. Second, because it commands one of the finest city views in the world, comparable with that of Athens from the Acropolis, and of Paris from the Arch de Triomphe. A further study of Italian and French gardening will then impress upon one the wonderful advantages of the site for terracing, for cascades, for fancy steps etc. also for a place where in fancy steps, etc.; also for a place where in which he was sentenced for the murder bill dreammer evenings the town may repair to of William Goebel.

one of the coolest spots in the District. We need more parks within walking distance where people may sit down.

"Again, I will state that with, one exception it is the only park site in town that commands any view at all. The other one is the ground about the Capitol building. The height of the Meridian Hill site is double that of this Capitol site, this being ninety feet above the Potomac and the other 202 feet.

"The third reason why this ground is needed to be taken immediately is in the interest of the proper development of 16th street. Sixteenth street was originally intended to be a model residence street of the nation. The White House faces it. Sites were offered free to foreign governments if they would erect their legation buildings upon them."

#### Other Arguments Presented. Mr. Henderson, a son of former Senator

John B. Henderson, stated briefly that some thing must be done to redeem 16th street extended, or that beautiful thoroughfare, which has been regarded as destined to be one of the great boulevards of the country, would be ruined. He said that it is now would be ruined. He said that it is now largely given up to shanties, and that unless something was done to improve it, such as the proposed purchase of ten acres of land at the top of 16th street for a park, the street would continue to go down and would be lost to the people of the city as a beautiful thoroughfare.

Senator Carter spoke especially in favor of the Meridian Hill Park, but said that he thoughf Congress should fix the limit of price that it would pay for this property and believe that it would be just to assess benefits, as is done in the case of street extension.

tension.

He made a strong plea for parks in the northern section of the city and said that Congress had done practically nothing in that respect in comparison with other places, if Rock Creek Park itself is not considered. The 16th street park would afford a beautiful point of observation from which Arlington and the great expanse of the Potomac river could be observed. A park there filled with benches would afford a most desirable breathing space to the people of that section of the city.

Value of the Land. Value of the Land.

Mr. R. H. Goldsborough, speaking in relation to the value of land in the vicinity of the proposed extension, said that the gov ernment had paid for the observatory acre, options for the land being secured and accessible to the proposed board of park control. The bill specifies these proposed tracts of land.

grounds about 25 cents a foot, or between \$11,000 and \$12,000 an acre. He himself, sixteen years ago, had bought land that is now in this Thompson syndicate for \$4,000 sixteen years ago, had bought land that is now in this Thompson syndicate for \$4,000 an acre and ten years ago sold it for \$5,000

# INJUNCTION ISSUED.

Court Insures Mrs. E. M. Dempsey Custody of Children.

Chief Justice Clabaugh, in Equity Court No. 1, today issued an injunction against Patrick A. Dempsey on petition of Emily M. Dempsey restraining the defendant from interfering in any manner with the custody of the minor children of the complainant and the defendant until the further order of the court. In the petition or which the order was issued it is alleged that the defendant attempted today to take charge of the children, who have been in the custody of the complainant pending the determination of a suit for divorce instituted by her December 7, 1905.

Mrs. Dempsey claims in her petition that she has had the care of the children since the alleged desertion of her by her husband, and states that she was recently compelled to leave Washington for Atlantic City in order to arrange for the opening of her hotel there for the Easter season. Until she could prepare to take her children there, she informs the court, she was obliged to leave the four youngest in the custody of her mother at her home at 36th and Prospect avenue. She asserts that the defendant today went to the house and or-dered the children to dress and go to Atlantic City with him, where, she claims he is going to take charge of her

The complainant further alleges that the "As a member of the commission that purchased the land for the Senate office phone to F. Edward Mitchell the solitation purchased the land for the Senate office purchased the land for the Senate office for the complainant, but that the defendant say we were simply robbed on that occasion. In that case the price paid was three times the assessed value of the property."

The petitioner also asserts that counsel the defendant is the defendant.

for the complainant telephoned to the defendant, who, in his reply, it is alleged, announced his intention of taking the children with him to Atlantic City.

The court was asked to enjoin the defendant from taking the custody of the children during the pendency of the divorce suit and to award the care and custody of the children to the complainant. The order was thereupon issued.

In the suit for divorce filed by Mrs. Dempsey a co-respondent is named. The answer of the defendant to the bill was filed by Attorney J. S. Easby-Smith.

# COMES TO A CLOSE.

Board of Administration, D. A. R. Holds Final Session.

The sessions of the national board of administration of the Daughters of the American Revolution for the month of March closed today. It is stated that the outlook for a busy and prosperous session of the continental congress is excellent. The matter of representation of Montana, which caused so much flurry in the last congress, has been referred to a special committee, and it is thought that all differences will be overcome by the time the congress reaches the matter.

The Continental Memorial Hall board meets this afternoon at 3 o'clock to take action on various matters pertaining to the hall before the meeting of the congress. The District conference of the D. A. R. will hold an all-day meeting at the Ebbitt House tomorrow. It is expected that the president general will be the guest of the conference. Mrs. Ellen Spencer Mussey is regent and Mrs. Howard L. Hodgkins is vice regent of the conference. At the last session of the national board

his afternoon it was announced that about 500 members had been added to the national society during the last month. The last month, it is stated, is the most prosperous in the history of the society, so far as dues are concerned.

FUNERAL SERVICES OVER RE-MAINS OF GEN. HARRINGTON.

Large Delegation of Local Military and Other Organizations Attend-Interment at Oak Hill.

A large concourse of comrades and friends of the late Brig. Gen. Francis H. Harrington, United States Marine Corps, assembled this forenoon at St. Paul's Catholic Church, 15th and V streets, to attend the impressive services over his remains. An unusual and pathetic feature of the obsequies was that Rev. Father George Harrington, a son of the deceased officer, was the celebrant at the mass. This fact lent additional solemnity and a touch of genuine pathos to the sad occasion.

The solemn and impressive burial cere monies of the Catholic Church began at 10 o'clock. When the hearse containing the casket reached the church the Spanish War Veterans, members of Carroll Council, Knights of Columbus, and Elks drow up in parallel lines and the remains were carried through the lines into the church on the shoulders of six stalwart sergeants of the arine Corps in full dress uniform

In the chancel with Rev. Father Harrington, the officiating priest, were Rev. Fathers Mackin, Krug and Walsh of St. Paul's Church; Rev. A. P. Doyle of the Apostolic Mission House and Rev. # Hyattsville News.

Special Correspondence of The Star. HYATTSVILLE, Md., April 4, 1993. special meeting of the mayor and ommon council was held last evening, Mayor Wells presiding and Councilman Charles H. Long acting as clerk. On motion of Councilman Owens, the treasurer was directed to return to the Potomac Electric Power Company of Washington a sum of money deposited to defray the expense of a special election for a vote upon a proposed franchise to that company to install an electric lighting plant in Hyattsville. The treasurer was directed to inform the company that the people having voted favorably upon the proposition to install a municipal electric lighting plant it was regarded as unwise to submit the company's

proposed ordinance. On motion of Councilman Joseph R. Owens, the treasurer was directed to advertise for bids for the sale of the electric lighting bonds in the sum of \$12,000, it being the idea of a majority of the members of the council that the installation of the

of the council that the installation of the plant should be completed promptly.

Attorney C. A. M. Wells, representing the Hyattsville Gas and Electric Lighting Company, submitted a draft of a proposed ordinance granting the company authority to maintain in the town a gas plant and lighting system, and asked that it be submitted to a vote of the people. The council ordered a special election to be held Saturday, April 21, between the hours of 2 and 7 o'clock. The company proposes in the ordinance to furnish gas for private and public lighting at the rate of \$1.25 per and public lighting at the rate of \$1.25 per thousand cubic feet; and agrees that the plant shall be in operation one year from the date of the ratification of the ordinance by the people. It was also ordered by the council that the charter recently granted by

the legislature to the company be also printed.

# Fox Saves Man's Life.

Special Cablegram to The Star. GENEVA, April 2 .- A fox has just saved the life of a poor man here under extraordinary circumstances. The man was walking from the village of Chaux-du-Milwalking from the village of Chaux-du-Millieu to La Brevine in the canton of Neuchatel through the deep snow, when he fell exhausted on the road. Some hours later he was aroused from sleep by a tugging at his shoulder, and found a fox tearing open a bag of provisions which was strapped to his back. He would have frozen to death if he had remained undisturbed in the snow.

turbed in the snow. Count Henri de la Vaux and Charles Levee, the French aeronauts, made a successful ascention at West Point, N. Y., Saturday afternoon. The balloon took a southerly direction, crossing the Hudson river and lauding at Peekskill.
